Horatio Seymour, Jr., Elected by Ten Thousand Majority.

NEW YORK, Nov. 9 .- The Herald says the Republicans at headquarters here feel confident that they have elected the most of the State ticket. Mayor Cooper has called the attention of the police commissioners to the fact that the returns from thirty city election districts are still missing. The Sun's returns give Potter, Democrat, a majority of about two thousand. Horatio ymour, Jr., Democrat, nearly ten thousand majority and says it is proba-ble that Wadsworth, Republican, for Comptroller, and Ward, Republican, for Attorney General, are elected. Carr. Republican, for Secretary of State, runs very close to Beach, with chances in favor of being elected. Between Wendell, Republican, for Treasurer, and Mackin, the race is very close.

Crop Report.

NEW ORLEANS, Nov. 9 .- The following is the crop report of the Cotton Exchange for October: Louisiana in six-ty-five replies from twenty-nine parishes, of an average date of October 31st. The weather is reported as having been very fine throughout the month. A general frost occurred about October 23d, but caused little or no damage. The proportion picked averages about 70 per cent. Two parishes report the picking finished. The balance will finish about December 10th. Thirty replies show an average increase in the yield as compared with last year of 25 per cent. One gives the same yield as last year and twenty-four make no re-

port as to either increase or decrease. MISSISSIPPI.—From this State we have received seventy-eight reports from thirty-one counties, dates ranging from October 28th to November 4th, the average date being October 31st. The weather has been exceedingly favorable to the crop, and compared with last year, decidedly better for gathering. Light frost appeared throughout the State on the 24th of October but caused no damage. Seventy per cent. of the crop is picked and picking will be generally finished about December 19th. Thirty-nine replies show an average increase in the yield as compared with last year of 21 per cent. Thirteen an average decrease of 16 per cent. and twenty-six report the yield as about the same as last year.

ARKANSAS .- Our report is that compiled from forty-three replies from twenty-three counties of an average date of October 31st. The weather du ring the month has been dry and for gathering the crop the most favorable ever known. A light frost was reported about the 24th but this occasioned no damage. The average of the crop picked is about 65 per cent, and pick ing will be finished by or about December 10th. Twenty-four correspondents report an increase in the yield as com pared with last year of 21 per cent. Nine a decrease of 28 per cent, and ten report the same as last year.

SAVANNAH, Nov. 10.—The Cotton Exchange report of the crop of Georgia. The weather during the month of October was cloudy and rainy until about the 24th. After that clear, and on the whole less favorable than that of last year for gathering the crop. There was a light frost in the upper counties of the State on 25th, but the damage was very slight. About one half the crop has been picked, and the picking will be finished from the first to the twentieth of December. No estimate of the yield of this State can be made at this time, and much depends on the weather during the next ten days or two weeks Since October 25th it has been clear and favorable for opening of the matured bolls. In Southern and Southwestern Georgia the prospects is 25 per cent below the vield of last year, while in upper Georgia the farmers are very hopeful that the turn out will equal or exceed that of last year's. The temperature during the month of October was warm, and sultry and continued rains, while the injured quality of the cottor was delayed in the picking and retarded in opening of the bolls. Had the effect of pushing rapidly to maturity the young green bolls of top crop, so much so that in various sections many reports insist that with a favorable season and late frost, the yield from this late cot-ton will not only equal but may exceed the amount gathered from the balance of the crop. A top crop, however, is not general throughout the State. No top crop or second crop can be formed in sandy ground where the crop has been injured by rust, nor in Southern Georgia where caterpillars has ap-

appeared. FLORIDA.-Not a sufficient numbers of reports have been received from the upland districts on which to base a report. In the Sea Island section the weather being too wet and less favorable than last year for gathering crops. No frost has occurred and the weather since the 25th has been clear. This crop will be inferior in quality to last years, but taking into consideration the increased acreage the yield is not apt to tall below that of

last year. NORFOLK, Va., Nov. 10.-The following report of the condition of the cotton crop, compiled from sixty-two replies from twenty-one counties in Virginia and North Carolina. The general character of the weather since October 1st has been dry and warm, and more fa-yorable for gathering the crop than ast year. The general frost of October 9th did considerable damage to the late bolls. About 70 to 80 per cent. of the crop has been picked, and the picking will be completed about the 15th to the 20th of November. Eleven replies show an increase and fifty-one a de-crease in yield, and the average de-

crease being about 14 per cent. Death of Rev. Dr. Lovick Pierce. AUGUSTA, Ga., Nov. 10--The venerale Doctor Lovick Pierce, the father of

THE GRANT AND SETTLE BOOM IN WASHINGTON.

Grant to be the Next Republican Candidate "So Sure as he Lives and the Convention Meets."

rom Our Own Correspondent. WASHINGTON, Nov. 9 .- The Republicans here are jubilant and the Democrats indignant at the seemingly successful efforts to start the Grant"boom" in North Carolina as foreshadowed in an article from the Baltimore Sun, copied in the NEWS of yesterday, that Democrats there, whether prominent or obscure should lend themselves to such a movement is unaccountable and unpardonable, save upon the ground that they are not familiar with the "true inwardness" of it. Everything is being perverted and prostituted to the Grant "boom," and he is just as sure of being the next Republican nomination as he is of living when the convention meets. This is settled and fixed as certain as anything of the future can be "here below." And while they expect, if necessary, to count him in, no matter how the electoral vote may stand; the managers desire

exceedingly so to manipulale, cajole

and deceive the South that he may re-

ceive the vote of a State or two there,

and so render a "count" unnecessary. North Carolina appears to be one selected for the scene of primary

and initial operations. Keogh, Tour-gee, Pool and a few others are put for-

ward to be interviewed by Northern papers. Settle is promised the second place on the ticket. Grant is invited to visit the State, and "prominent Democrats" are announced as foolish and suicidal enough to join in the ovation and give the infamous project a "boost!" Who does it, is damned. It is nothing more or less than the ground-work of the Radical programme of next year, and whoever gives it a word or act of encouragement in North Carolina, if a Democrat, is furnishing the desperate and unprincipled enemy with the weapons for his own and his party's destruction. Let Democrats stand aloof: f Grant visits North Carolina, let his own partisans and followers do the fawning, the flattering, the worship-ping, the "booming." It's no time now for Democrats to be sycophantically and obsequiously giving their countenance and support to Ulysses Grant in his imperial aspirations. It's no time now to dally or temporize with Radi

calism. It's no time now for the foot-

step of an honest man to be found in a

procession formed to "welcome" the

besotted and ignorant boor, who, with his arrogant and ambitious followers,

is seeking to strike the last and fatal

blow at freedom and liberty in Ameri-

ca. Let Democrats beware! SEYHOUR AND M'DONALD.

The Washington "Post" Names ar Invincible Ticket for 1880. In an article headed "The Men for

880," the Washington Post says of the

result of Tuesday's election: The defeat of Governor Robinson in New York finally disposes of the Presidential aspiration of Mr. Tilden. That gentleman staked his all on the result of the Gubernatorial contest and has lost. The issue was perfectly plain from the beginning. Mr. Tilden made it himself and the party accepted it. Robinson has been beaten, beaten badly, and in his failure is contained the positive proof of Tilden's inability to carry New York and his consequent unfitness as a Presidential candidate. have now the right to demand that Mr. Tilden, having thus conclusively established his weakness, give way to men better qualified to lead the Demo-

cratic party in the national battle of next year. New York has established its posi tion as a Democratic State. Any man whom the National Convention shall nominate can carry it next fall—except Mr. Tilden. The National Democracy cannot risk their hopes of success in the next Presidential contest on the feelings of one man, and that an unworthy one. Our candidate next year must be able to unite every element of the party in his favor in every State in the Union, and especially in New York.

The article concludes as follows: Seymour and McDonald would be in vincible. Seymour would carry New York against Grant, Sherman, Blaine or any one whom the Republicans could put in the field. McDonald could not be beaten in Indiana. The South will come up solidly to the support of any candidate we may name. This i the ticket to win. Let us nominate it

ORA NGEL.

CHAPEL HILL, Nov. 10.—The notorious illicit whisky dealer and distiller, L. Graham Sykes, of this place, was arrested last Saturday night, just before day, at his home. It will be remembered that said Sykes was arrested some months ago and sent to jail for retailing ardent spirits in Chapel Hill. He broke jail, returned to his old home and began his accustomed business. His distillery is said to be located at some distance from town and "under the ground." He manufactured during the week and secretly brought it to his wife, who disposed of it. She also stands indicted for the same offence. A new indictment against both was issued on the 6th of this month. This was not disposed of by the magistrates, though brought before them yesterday, and the trial set for to-day. The Deputy Sher-

iff has committed Sykes to jail, regard-ing the former charge sufficient. A glass ball shooting club, consisting of twenty-four members, has recently been organized by the students. The club is divided into two sections denominated A and B. The first match game took place last Saturday by section A. The prize was a gold medal. It was won by Mr. D. Gilliam, of Raleigh, who broke nine out of ten balls. Sec tion B will shoot for a similar medal

next Saturday.
Considerable excitement was created among the students and town people by a "two hours go as you please walking match," which occurred here last Saturday evening among the students. Prizes of the value of ten, six and four dollars were awarded to the three who made the greatest distance in that time. Mr. W. E. Phillips, of Tarboro, was the first; Mr. N. A. Reynolds, of Asheville, the second; and Mr. S. J. Turner, of Marion, the third. Phillips made 13 miles 970 yards; Reynolds 13 miles 530 yards; Turner 12 miles in said time. All came out quite tired. This is the second match of the kind ever held here. S. A. G.

On March 15th last there were two Thompsons arrested, John and James. The charge against John was petty larceny and the charge against James was the robbery of a gold watch and chain and \$100 from Benjamin Pierce's house, 508 Ella street. A true bill was found against James by the grand jury, but not against John. When the case was called in court the names got mixed up somehow and James walked out of court. A bench warrant was issued for James and given to Mrs. Pierce, who placed it in the hands of a friend. terday the lady saw Thompson and had him rearrested. He tried to deny his identity, but Turnkey Holloway brought his photographic memory into play and with Mrs. Pierce's testimony, succeeded in convincing the magistrate. WHAT THE SIGE OF GRAMERCY PARK.

Colonel Tuggle, Thinks the Late Fight Was Not His Fight-Where Kelly Got His Vote ef 50,000.

Atlanta Constitution 9th.

A short time ago Colonel W. O. Tuggle, of LaGrange, went to Washington to see after the claims of the Indians, with which he is accredited. While in Washington he took a run over to New York to see the Harpers relative to the publication of a book on the Indians that he proposes to write. While in New York he went over to Gramerey Park to see Mr. Tilden. It will be remembered that Mr. Tuggle was a Tilden elector in the last campaign, and has been quite intimate with the great statesman ever since. He visited Mr. Tilden at 11 o'clock on the day of election, and found him up to his ears in election returns. The following conversation took place between the two. and will be of interest to our readers: INTERVIEW WITH MR. TILDEN.

"Mr Tilden, what defeated Robin-"Kelly's bolt, He carried off 50,000 Irish Catholics." "The public regarded Robinson as

your representative?"
"It was not my fight. My time is occupied with my private affairs."
"How has the election really gone!" "Cernell has been elected Governor, and the balance of the State ticket is Democratic. The State is clearly Dem-

ocratic. The election shows New York to be a Democratic State, if her entire Democratic vote is undivided." "Could your friends carry a united delegation to the Convention next

"Undoubtedly. It is not a question of a nomination, but can the nominee "The people elected you in 1876, and with proper issues the same ticket can be elected again, it would seem-"
"I wish rest and quiet, and have
never said I was a candidate."

"The income tax case still interests the public?" "Yes, it takes about one third of my

time." "What do they claim?" "About \$150,000."

THE APPEARANCE OF MR. TILDEN. Mr. Tuggle's impression was that Mr. Tilden was very much perplexed by the result of the election, and was considerably discouraged, though of course this was mere surmise. He gave no sign or intimation as to what his course would be or as to what the party should would do, but he stated in very emphatic terms that he though the Demo-

rats could elect their candidate. The drift of diversion in New York was towards our candidates. Bayard. Hancock, Hendricks and Potter being cheifly mentioned and in the order laiddown. The New York Heratd had an editorial that caused considerable comment, suggesting that Grant would be the favorite of the South, and that the South might elect him, while the

township. Three negroes, named respectively Graham Smith, Willis Beckwith and James Robinson, the last hairing from Johnston county, were lodged in jail by Mayor Griswold Saturday evening on the charge of resisting the police, one of them having drawn a pistol on

officer Swarigan. We learn that Major Grant proposes to lease of the county a building lot adjoing the stables of Mr. Bennett, being a portian of the court yard not under fence, for the purpose of erecting a large brick building to be used for fionring mills and tobacco factory. At the last meeting of the Board of County Commissioners the proposition was discussed, and Messrs. L. W. Humphrey, B, F. Hooks, W. B. Fort, W. T. Faircloth and D. A. The citizens of Onslow and adjacent counties met at Lainer's store on the 27th of September last. Dr. Charles Duffy in a very eloquent and logical address advocated the con-struction of the Duplin canal as a means of developing the great resources of the country. And claimed in his argument that the great future of this section was in the reclomation of the pres

ent overflowed lands, whose drainage could only be reached through the fall given by the construction of the proposed canal. S. H. Tremble, formerly of Ohio, but now of Duplin, also addressed the meeting, and in a clear and logical manner explained the plans used in Ohio for draining overflowed lands and the great results that followed therefrom. And stated that he knew from his own personal knowledge cf the route, that the construction of the proposed canal was practical, and that at very small cost. He said that although the uplands of Ohio were one boundless pairie, if the overflowed land that the proposed canal would

drain were in Ohio, steps would be taken for draining them in twenty-four nours. Various members of the meeting de bated the question as to the reason why the State had failed to give aid to this great work; when this section of country had so long aided by taxation the construction of highways and railroads in other sections of the State. During the debate Dr. Duffy moved

Messrs. S. H. Tremble, F. M. Futral and L. W. Brown were appointed, The following resolutions were re-

ported and unanimously adopted by the meeting.

Resolved, That this section of country, herein represented, has from time immemorial cheerfully and patiently given aid by taxation to the develop-ment of the central and Western part of the State, in the way of constructing highways and railroads, without ever receiving any direct aid from the State

whatsoever.

Resolved, That it is the duty of the State, as far as possible, to give aid to this long neglected portion of the State. Whereas, The locating and construct ing of a tidewater canal along the East-

ern and Northern edge of Angola Bay or Pocosan for the distance of thirteen miles, would greatly enhance the value of this same great body of land. MAN, AFTER THIRTY YEARS FIRDS HIS FAMILY.

Correspondence of the Detroit Free Press. East Saginaw, Nov. 5 .- Thirty-one years age there resided in Saratoga county, N. Y., Sands C. Carpenter, a young man with a wife and two sons. At this time the Millerite "boom" was at its height and Carpenter's father-inlaw was an enthusiast. Carpenter did not believe in the faith, and the reli-

separating Carpenter from his wife and two little boys. He went to Albany, and in 1858 removed to Chatham, Ontario, where he remained two years and then located at St. Clair and subsequently at Port Huron, which he has ever since made his headquarters, being engaged in surveying and locating. From the time he left home he lost all trace of his family, other than the mere fact that they had removed to this State. Yesterday Carpenter, a gray-haired man of 64, came to this city for the purpose of locating some land which he had been looking over, and in a conversation with a gen-tleman named Richardson, who resides near Flushing, Carpenter learned the whereabouts of his son, whom he had not seen since he was a child. He at once telegraphed to Corunna, and last night the boy, now married and a stalwart man of 31, arrived in this city and was warmly greeted by his father. The meeting of father and son after a separation of twenty-seven years, can be imagined. The young man's name is Orlando Carpenter, and he owns a farm near Corunna. The other son, Lewis, resides near Flushing. The wife and mother is also living near Flushing, and, having long since sup-posed her husband dead, married again to a man named St. John. The old gentleman was interviewed by the Free Press correspondent to-day, and

The Reception to Senator Bayard.

Baltimore Sun 10th. Senator Bayard's unexpected arrival at Wilmington, Del., Friday night, having reached New York that day on the steamer Neckar from Liverpool, has not altered the intentions of the citizens to give him a formal reception. The local military, the Excelsior Democratic Club, the employes of the morocco factories and other industries. and citizens generally will participate. The reception will take place Tuesday evening, at the opera house. In this connection, Major McAllister, com-manding the militia of Wilmington, has issued the following general order: 'A meeting of the battallion having decided to take part in the reception to be given to Senator Bayard on his return from Europe, which reception, it is un-derstood, is to have no political significance, nor is it intended in any manner for any other purpose than the recognition of the services of Mr Bayard as a public servant in the Senate of the United States, so that, therefore, the participation therein of non-political bodies, such as the State militia, can in no wise affect the future political course of any member, it is ordered that the battallion hold itself in readiness on Tuesday evening to take part in the procession. WILLIAM B. WARDIN, the head and front of the "Canal Ring," has been returned to the State Senate from the XXVIth District. This fifth-rate lawyer, that never made a cent except from log-rolling jobs in the Legislature, is fast assuming national importance.

OVER a week ago we stated that Jarvis Lord, of the New York canal ring, although he remained in the convention, needed watching. And we were correct in our surmise. His natural son, Robert G. Hopkins, will find it pretty hot under the supervision of State Engineer Seymour.

SHAME on the Republicans of New York State! Their cry has been for honest government. How has it turned out? Cornell, the custom house ring thief, has been nominated and elected over the heads of such pure Republican gentlemen as judge Robertson of Westchester, Ellis H. Roberts, of Oneida, and William T. Tinsley, of Wayne. None of these gentlemen, together with others we might name, have any stigma to their names. We can honestly differ with them politically, and still attest their good character.

Among the charitable institutions of our land the Orphan Asylums of this country rank among the first. There is nothing that should strike the philanthropic breast with more force or effect than the sight of a poor uncaredfor, parentless child, whose plaintive appeals for bread, shelter and clothing, at the hands of a professed christian people, only find expression, or awake consideration in the breasts of those who have souls.

The Baptist Convention in session at Oxford, last week took a right step in the direction of aiding these poor little unfortunates by adopting the following resolution:

WHEREAS. We feel a deep interest in the work of the Oxford Orphan Asvlum, and believe it is doing an inestimable amount of good; and whereas we believe that the Baptist people of the State will feel it to be not only duty, but privilege, to contribute regularly to its support, therefore;

Resolved: That all our pastors are hereby earnestly requested to take up a collection at each of their churches, at least once a year, in behalf of this great and important object. These collections should be made in

the churches of every denomination and should be taken up frequently. It is to be hoped that they will as a whole sum up a considerable amount.

"THE STRONG MAN."

This is no idle phrase any more. I: is really the war cry of the North. "The Strong Man" is the key note of the Republican leaders to-day.

La Rochefacauld and Voltaire, precentors of civil and religious liberty, stated years ago that a Republic could not stand. And from present appearances they were right in their surmises and expressions. As able a paper as Harper's Weekly has taken the alarm and calls Secretary Evarts to account, and asks the question: "Have we "really reached a condition in which "the party of the intelligence, patriot-"ism, and industry of the country, vic-"torious in the field and successful at "the polls, must betake itself to the "overthrow of the Constitution to main-"tain the rights and liberties of Ameri-'can citizens? This is the only meaning

"of the demand of a 'strong man." This "strong man" is General Grant. The "ring men" that are now getting alarmed at Sherman's possible have chances started the cry. What is to come of it?

The election of Mr. Cornell and the close victory of the Democratic State ticket in New York means Conkling's claims for the Presidential nomination next year. Mr. Blaine will enter the list against him. As it was in 1876, so will it be in 1880; neither one will give way to the other. A third man

will step in-probably Sherman. But this programme will not suit the "ring." The members of it want Grant. They cannot get him except on these conditions: Judge Settle has said that the General would not go into the convention and be the "dark horse" -he must have an unanimous votethe first by acclamation, or he would not accept.

What does the shout for the "strong man" mean? Nothing but monarchy with King Ulysses as the first of the dynasty. As able a paper as the Atlanta Constitution has proposed the nomination of Grant by the South..

The question is now pertinent: Is the Republic to last or shall we have a monarchy? With the Benett militia bill, and Secretary Evarts' remarks, and General Grant's known willingness, we should have to decide in favor of the second postulate.

AID THE ORPHANS.

The Oxford Torchlight, of yesterday, after alluding to the announcement made through its columns, of Professor Mills, that devoted and big-hearted Superintendant of the Orphan Asylum, wherein he stated that the appropriation for the support of the orphans had

been spent, says: "This announcement should open the hearts and plethoric purses of our peo-ple. It is to be hoped and believed that these little ones, entrusted as they are to the care and keeping of the charita-ble people of North Carolina, will never permitted to want for the necessities of life. To contemplate such a thing would cause the blood to recoil

in the veins of every Christian." temporary says, and trust that the hearts and purses of our people will be opened to these little unfortunates.

Truly, if anything or anybody deserves the sympathy of their more fortunate fellow beings, it is these fatherless. motherless, parentless little ones. Ye who are surrounded with all the comforts of this life; ye who have been blessed so much that your parents are spared to you, stop a moment and give a moment's thought to these!

THE ELECTORAL VOTE FOR 1880. The Washington Post says: The pivotal State of the Union, New York, having now ranged itself in the Democratic column, we have complete data upon which to base a calculation as to

the manner in which the Electoral vote of 1880 will be cast. This is our table: DEMOCRATIC STATES. Alabama, Delaware. Indiana. Louisiana Maryland. lississippi, Missouri. New Jersey, North Carolina,

Virginia. West Virginia. Total,

South Carolma,

Tennessee,

Wisconsin,

Texas.

REPUBLICAN STATES. Colorado, Connecticut, Illinois, lowa, Maine. Michigan. Minnesota, Nebraska. Nevada. New Hampshire, Ohio, Pennsylvania, Rhode Island, Vermont.

Total. DOUBTFUL STATES. California,

There are 369 votes in the Electoral College. Of these 185 are a majority. The Democratic Presidential ticket will receive a vote of 197, a majority of 34 over the Republican combination, and 12 more than are necessary to elect. This is our prediction.

The Recently Elected Governors.

Alonzo B. Cornell, New York's governor-elect, was born at Ithica, in 1832, and is a son of Ezra Cornell, the founder the university that bears his name. He received an ordinary education at the Ithica academy, and at the age of fifteen became a telegraph operator, and had charge of the Cleveland, Ohio, office. In 1852 he became general manager of the New York office, retaining this until 1858. He then embarked in business, ran a line of steamers on Lake Cayuga. From 1864 to 1869 he was cashier and vice-president of the First National Bank of Ithica. He is one of the officers of the Western Union corporation. Mr. Cornell has always been active in New York politics, has been a Republican since the organization of the party, and has for a number of years been a member of the State committee, serving several times as chairman. He was the Republican candidate for lieutenant-governor in 1868, but was defeated. Mr. Cornell has held a number of offices, the first of any importance being that of Surveyor of the Port, to which he was ap-pointed by General Grant, which he resigned to accept a seat in the assem-bly, in which he was afterward elected Speaker, He was subsequently appointed Nava! Officer in New York, and removed by Hayes.

William T. Hamilton, Governor-elect of Maryland, was born in Washington county, Md., in 1820, was educated at Jefferson college, Pennsylvania, studied and commenced the practice of law. He early entered politics, being a member of the Legislature when twenty-six years of age. From 1849 to 1855 he served in the lower house, de clined the nomination for Governor in 1861, and did not take active part in politics again until 1869, when he was elected to the United States Senate, where he served until 1875. Governor Hamilton is an able man, and very popular in his State, as the recent elec-

Young's Examination.

Petersburg Index-Appeal. On Saturday morning the examina-tion of James M. Young, for the killing of George Hinton, was continued in the Mayor's Court. As on the previous day a very large crowd was in attendance and the same interest was manifested by the spectators. The prison er's counsel were present, and all the evidence submitted, considered of importance, was reduced to writing. A number of witnesses for the Common-wealth were passed over, and several of them were recognized to appear at the Hustings Court. The court was in session about three hours, and the accused was sent on to the Hustings Court for trial. The prisoner did not seem in as good spirits as before, but was an attentive listener to the testi-mony. One of the witnesses, Mr. John Taylor, a citizen of North Carolina, was required to give bond in the sum of 5500 for his appearance to testify in be-

half of the Commonwealth. Mr. Aug. Wright became his surety. The case will be called for trial at the January term of Judge Mann's court. It is not yet known who will represent the Commonwealth, and during the last few days several prominent lawyers of the State have been mentioned in that connection.

FROM THE HON. WM. TAYLOR, STATE SENATOR OF MASSACHUSETTS. Messrs, WEEKS & POTTER: Gentlemen,-Messrs, Weeks & Potter: Gentlemen,— To say that I am grateful, is only a poor ex-pression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burring heat and itching of the parts affected, and was con-tined to my house for weeks at a time. My disease has been called Eczema, of a most

disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt If ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to be the combination of the best expense and consulted some of the best break to Boston, I was to be sever. When I came back to Boston, I was told break to the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.— (whose reputation for the cure of those diseases was of the highest parter out of the cure me. I waited on the docthe cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians and among them Dr.——, of East Boston, and Dr.——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no timedid I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5,20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used, but the ef-

ternal applications I have used, but the effect was the same. I became satisfied that I could not be cured, but might be kept Now, about three months ago, Mr: Meehan, a gentleman well known to Boston people, called my attention to your CUTI-CURA, and promised wonderful results if would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought true large boxes of CUTICURA. on me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the

receweek's use of this remety, I was greated as encouraged by a gradual lessening of the affammation of a number of painful sores, carefully, faithfully, and cheerfully followed the directions to the letter, feeling ach week nearer a cure, until at the present moment, after three months' use of Curents and well after three months' use of Curents and well are the properties. TICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record. I have been so elated with my success that I have stopped men on the stream statement of the success that I have stopped men on the stream statement of the stream of the str men on the street who were afflicted, and cold them to get the CUTICURA and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT.

An "Agricultural Number" of Scribner's Monthly.

In addition to the usual variety in the contents of Scribner, the November issue contains a half dozen papers of the highest interest to farmers, and others interested in rural life : "The Agricultural Distress in Great Britain," by T. Quinn; "Farming in Kansas." Henry King; "Success with Small Fruits," by E. P. Roe; "Rare Lawn-Trees." by Samuel Parsons, Jr.; "The Mississippi Jetties," and their effect on open the colored people's fair next Monday. J. E. O'Hara, colored, will "How Animals Get Home," by Ernest Ingersoll.

There are two fine portraits of Bayard Taylor-one engraved by Cole, from the best photograph, and the other a reproduction of Juengling, of O'Donovan's bronze bass-relief. The portraits accompany a discriminating critique of Taylor, by Stedman. Clarence Cook has a paper on "Morris Moore's Old Masters," with a reproduction, by Cole, of Raphael's "Apollo and Marsyas." There are poems, stories and sketches; "The French Quarter of New York"; "Extracts from the Jour-nal of Henry J. Raymond," with interesting reminiscences of Daniel Webster; A beautiful story, by Boyesen; an iugenious story, "A Sigh"; the an ingenious story, "A Sigh"; the fourth part of "Confidence," by Henry James, Jr., begun in August; and the first part of a new American novel of Creole life, "The Grandissimes," by G. W. Cable, of New Orleans, the author of "Old Creole Days," which has created such an excellent impression in the literary world. "The Reign of Peter the Great," by Eugene Schayler, is noted editorily. This splendid series of illustrated historical papers, the greatest work of the sort yet undertaken by any popular magazine, will begin in the January issue and will con-

tinue for two years.

All that enterprise and skill can do will be done to maintain the position of Scribner as the leading popular periodical of America. With the revival of the agricultural and business interests of the country, increased attention will be paid to papers on great public enter

prises and interests, already a notable feature of the magazine. Price, \$4 a year; 35 cents a number. Subscriptions should begin with the November number. Buy it of your

book seller or send the subscription price to the publishers. SCRIBNER & Co., 743 Broadway, New York.

Curative.

Below is appended a letter received by Mrs Joe Person. It is commended to the readers of the NEWS:

Nov. 2, 1879. I have now been using your bitters and wash over eighteen months, and the longer I use it the more I am convinced of its merits. The cancer covers perhaps one third of my face and goes in deep, but your bitters and wash have held it in check, so that it has comparatively made little progress since using your remedy. The bitters have kept up my general health so as to surprise all my friends, and the wash keeps it so clean that there is nothing offensive about it. At this time there is one place healing and looks like getting well; new skin has formed a half inch wide and one inch long. My tongue was very sore each side near the root; that has disappeared. The end of my tongue was very sore and coated with white; that is nearly all gone. At one time my taste was nearly all gone; now everything has its natural and proper taste. My general health is better than it was two and two and one-half years ago, all those changes for the better the result of your bitters and wash. I feel that with the blessing of God I owe you my life. It does not look probable that such a frightful looking place could ever get well, and yet all those little improvements sometimes makes me hope that God may yet make the medicine the means of curing it. My prayers go up to Him daily for the best of heaven's blessings on you. The ease and comfort I have enjoyed by using this medicine is more than I can tell. I would not be without it for thousands of dollars. I do not know how to express

myself in regards to the merits of the medicine. I regard it as superior to any tonic or alterative, and I have tried everything I could get for the past twelve years. God bless you and your medicine is my daily prayer. Respectfully and truly, John Buil

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Cblorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenor rhæa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F. BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment, GEO, T. HARRISON, M. D., New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for

chronic diseases. G. M. D. PATTERSON, M. D., Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhæa, etc., "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY, DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from drug zists always mention Seven Springs Mass. Rev. Dr. Mangum, Prof. Univ. of N. C. I concur with Bishop Doggett in his e ti nate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap., It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Many cases of Dyspepsia within my knowledge. Chaplain Randolph Macon College, Vs. Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va.

It is highly esteemed here by the regular
Medical Faculty and the people It is excellent for indigestion and flatuient colic,
sedative, soporific, tonic, slightly aperient,
without nauses.

Rev. B. F. Woodward P. E., Na. Conf. About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Vp. I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.
It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion. I use it and recommend it. Editor Richmond Christian Advocate.
